specie movement during the week, it will be seen, was large. The deliveries to counterbalance the drain been \$1,707,000 from California and \$212,000 from Liverpool. The sub-treasury has also disgorged \$450,000, and some of the interior exchanges being in favor of this city, our stock of bullion has been strengthened from that source also. The bank account of Monday will probably be a satisfactory one.

One of the paramount duties of a stockholder in a railroad is to vote either in person or by proxy at the election of Directors, and this duty the stockholders of the Harlem Road are called upon to perform on Tuesday next. Two tickets are presented, and stockholders should compare them and vote for that which is most likely to manage the affairs of the road most ale and profitably. We appea the two tickets.

The Pittsburgh and Steubenville Railroad, we understand, was leased last week for a term of forty years by the Pennsylvania Railroad Company. The important work is now substantially completed with the exception of the bridges over the Monongabela at Pittsburgh, and the one over the Ohio at Steubenville. These, we are informed, are under contract,

ties who are entitled to it, and who do apply for it in time), on the same terms to other stockholders who shall apply for more than the'ir due proportions Stockholders will see that they need not limit their subscriptions to the 40 per count to which they are absolutely entitled, but this they are at liberty to apply for such amount of the stock as they may desire to have, without reference to their for rate shares; and if they do se, all will be equitably treated in the final distribution. Mested the stockholders, we is derstand, apply for more than their per rata share of the new stock in order to obtain a portion of any surplus which may not be applied for by the parties who are entitled to it. But many of the country subscriptions are cent in for the exact amount of the 40 ? cent to which they are absolutely entitled, exparently under the impression that it would be needess to apply for more. We allude to this subject inverder that all may understood what their privileges are up to the close of business on the 20th May inst., and country stockholders will still here time, if they desire to do so, to increase their subscriptions by letter or by telegraph. Thereesire manifested to take the stock—the subscriptions to which already exceed \$1,000,000, exclusive of the amount reserved for foreign stockholders makes it probable that some of them may wish to do so. The subscription to-night reaches 40,112 shares, raprecenting \$4,011 200. Among the large subscribers today were Hognet & Boell, 700 shares; T. C. Burant, 256 shares; -J. L. Schoolers A, 200 shares, &c. The Company have decided to issue certificates for the new stock; 65 F cent paid and to open regular transfer books which meets the wishes of the Board of Brokers.

The assual election of directors of the Bank of the Commonwealth comes off on the 1st June.

A theusand dollar mote, upon the Northern Bank, Providence, R. I., of the date of December 26, 1856, was lost or stolen from a depositor a short time since. It was the only note of that denomination out, and the eashier has given notice that it will not be redeemed.

The Buffalo, Coming and New-York Railroad was sold on the 14th under foreclosure of the 1st Mortgage, and brought \$875,000, including the relling stock. It was bought by the 1st Mortgage Bond-holders, who will finish the road from Batavia to Buffalo, and work it under a new organization. The first Mortgage isfor \$1,000,000.

The earnings of the Mad River and Lake Eric Railroad for April show a large increase over the corresponding month of 1856. For April, 1857, they were,

This is made up of an increase of freight receipts of nearly \$13,000, and incidentals of \$2,200, while in the passenger receipts there is a falling off of over \$4,000. The earnings of the Cincinnati and Indianapolis Road in April were:

At Cincinnati, in Ohio and Mississippi Shares there were sales of 350 shares at 111 a 12. The opening passenger business of this road is, we understand, much more promising than was anticipated, and gives decided indications that the expectations of its friends will be fully realized. The movement in the Produce market is not very

active, and prices are unchanged. Corn, however, has improved 2 cents per bushel. In Pork there is a fair business doing. The excitement in Sugar continues, and the sales of the week have been very large, at continually advancing prices. The imports have been extremely large. Cotton is drooping, with very little doing. Middlings can be bought at 134 cents. The fall in Liverpool has sent back a few bills under protest.

ing remarks:

"For several years past the Company have been spending large sums on the road and its appurtenances, and preparing, in advance, for the business which it was known must be brought upon the route as soon as the connecting lines were opened. The delay in the completion of these roads made a corresponding delay in realizing a peturn on these outlays, but that time is now past. The facilities for doing a large business exist and are paid for, and the business is now coming. For the last nine [months the increase has been large, and this increase may be expected to continue regularly. With every year the condition of the Company will improve. No estimate is submitted of the business of the coming year, as none could be made with any approach to accuracy, but the Board have full confidence in the result."

from interruptions to the navigation, as well as to the New Jersey Central Railroad, is still very light; but from the Schuylkill coal region the last reports show more activity. We notice that the Reading Railroad brought down, for the week ending on Thursday last, 40,677 tuns, and for the year 664,991 tuns, against 699,539 tuns up to the same time last year, showing a loss of 34,548 tuns. The Schuylkill Navigation brought down for the week 39,003 tuns, and for the season 181,415 tuns, against 175,764 tuns to corresponding time last year, being an increase of 5,651 tuns, making the net loss from the Schuylkill region this year of 28,897 tuns. The shipments by the Lehigh Navigation for the week ending on Saturday last were only 3,386 tuns, making for the season 48,748 tuns. The Lehigh Valley Railroad reports for the week ending on Saturday last 8,968 tuns, making 130,990 tuns.

The annual report of the Connecticut Railroad Commissioners shows that the whole amount of capital of all the reads now chartered is about \$24,000,000 of which nearly \$19,000,000 is paid in, being an increase of \$50,600 paid in, over the last year. The total funded and floating debts of all the roads is \$11,363.-849 01. The gross earnings of all the roads show an increase over last year's report of \$184,875 10, and the not earnings, the still greater increase of \$232,-362 82; while the dividends are increased \$59,526 75,

and the surplus \$197,684 73. The failure of the bill to erable the City of Pittsburgh to raise taxes sufficient to meet the interest on

large supply and in but moderate request, and it is understood that within a few days the discounts here on New-York account have been considerable. We still quote 8 will be seen for strictly firsteriass paper, and 10 a 12 for the heat single names offered. But haviness is very dall the country Bank deposits are larger than usual at this senson of the year, the bulk integer than usual at this senson of the year, the bulk of imports and of mercartile positions is ever for the Spring, and, altogether, not such morey is wanted. The Banks seem hardly as rich as they have been owing, 16 haps, to the drafts of country Banks, which, sthough less than usual, have recently increased to smount. Still, regular bank customers and no difficulty in getting money on good notes at 628 P cent.
